### **Resume Profile**

Outstanding student seeking to attend \_\_\_\_\_.

### **Achievements/Awards**

- Freshman year up to now cumulative weighted GPA: 4.66; unweighted GPA: 4.0
- Received the Williamson County “Perfect ACT Composite Score” award for achieving a composite 36 on the ACT
- Received a 790 on SAT Math II Subject Test
- Will take the SAT Physics Subject Test on June 6, 2020
- Accepted into the Governor’s School for the Scientific Exploration of Tennessee Heritage during the summer of Sophomore year
- Accepted into school’s Mu Alpha Theta society, a math honors society
- Accepted into school’s Rho Kappa branch, a social studies honors society
- Most outstanding Chinese Language Student award (Freshman year)
- Top 40 GPA Award (Freshman year)
- Top 10% of class (Sophomore year)
- Received numerous medals (1st - 6th place) from competing in Science Olympiad on the invitational, regional, and state levels
- Received trophies (1st - 3rd place) for team overall score in Science Olympiad on the invitational, regional, and state levels.
- Nominated and applied to school’s National Honors Society branch

### **Activities**

- Freshman Year Clubs:
  - Key Club
    - A nonprofit volunteer club that performed activities such as the one listed above in community service.
  - Science Olympiad
    - A team-based science club that competes at invitational, regional, and state level competitions.
  - Medicine Club
    - A club designed to introduce students to various medical fields through shadowing opportunities, hospital tours, and doctor lectures (such as Dr. Snodgrass, Dr. Ronald Alvarez, and many more)
  - Interact Club

- Similar to Key Club, Interact Club is a nonprofit volunteer club focused on helping out within the community. Activities such as the one listed in service were performed.
- Sophomore Year Clubs:
  - Key Club
  - Science Olympiad
  - Medicine Club
  - Model UN
    - In model UN, I was a delegate of Cameroon and spoke about the political and economic issues that Cameroon was facing to try and receive “funding” from the UN.
  - Interact Club
  - BHS HOSA Branch
    - A medical-based competition similar to Science Olympiad. In HOSA, I studied for various events and helped other, but I did not compete
  - Mu Alpha Theta
    - A math honors society. In Mu Alpha Theta, I volunteer at competitions and math-related events around the community, I compete in competitions, and I tutor others in math-related subjects.
- Junior Year Clubs:
  - Key Club
  - Science Olympiad
  - Medicine Club
  - Eco Club
    - A nonprofit volunteer organization that focuses on environmental-based volunteering around the community, such as planting trees for Arbor Day, introducing students to the environment around them, and cleaning litter off of the ground.
  - Mu Alpha Theta
  - Rho Kappa
    - A social studies honors society in which members do history-related events around the community and help others learn about various history-related topics
  - Science Bowl
    - A team-based club in which teams compete against other teams through answering the most science questions. The rounds are timed and members of a team buzz in through a buzzer system to answer questions. I competed on the invitationals level and within the team itself.
  - Asian Cultural Club
    - A club meant to introduce students to the various cultures and foods of Asia. Activities include eating foods from various places, watching traditional cultural dances, listening to traditional cultural music, and many others. Activities vary depending on member interest, the region with the most interest being the region we focus on in the next meeting.

- Leadership positions:
  - Treasurer of Science Olympiad (Sophomore year)
    - I handled the membership fees and tracked who had paid and who hadn't. I also tracked the sweatshirt orders and the money involved with the orders.
  - Secretary of Medicine Club (Sophomore year)
    - I organized group hospital tours, doctor shadowings, and doctor lectures for the Medicine Club. To do this, I would email doctors and organizations asking if they would like to help aspiring medical students. I also lead meetings and lead club members.
  - Vice-President of Medicine Club (Junior year)
    - I lead the other officers of the Medicine Club and decide who will lead the Medicine Club in the future. I also do the same duties as I did during my time as the Secretary of Medicine Club.
  - Volunteer Coordinator of ECO Club (Junior Year)
    - I organize volunteer events for the ECO Club. For example, I reached out to the Adventure Science Center to allow the club to help with the Fall Fest. I also assisted in coordinating ECO Club's participation in The Brentwood Library's Arbor Day event.
  - Secretary of Asian Cultural Club (Junior Year)
    - As secretary, I am responsible for member information and member interaction. In being responsible for member information, I keep everybody's data (name, grade, membership dues, and activity) in a spreadsheet. For member interaction, I am responsible for announcing when a club meeting will occur and what the meeting topic will be.
- Currently taking guitar lessons from the Music and Arts store in Franklin, TN. Began March 2019 and take lessons once a week for 30 minutes on Sunday.
- Played the violin for 5 years
- Played 7 years of club soccer

### **Community Service:**

- Volunteering at the Brentwood Library; Two hours every Thursday since February 9, 2019 (total 79 hours 33 minutes)
  - I help restock the books in the Children's Section and ensure that books are in the correct area.
- Volunteering at the Adventure Science Center; Began March 2018, ended August 2019, generally three hours every other Saturday (total 39.5 hours)
  - What is done varies depending on what you sign up for, but generally I tended to sign up for Planetarium Assistant and Giftshop Demonstrator. A Planetarium Assistant helped roll strollers around to the top of the planetarium, lead guests to their seats, and hold the exit doors for guests. A Gift-shop Demonstrator displayed the various items in the gift-shop to passing guests and explained how each item worked.
- Volunteering Through Key Club events; During 2017-2018 (freshman) school year (10 hours)

- Work depended on the event, but the projects were usually community related. For example, during one project I guided people around Marcella Vivrette Smith Park before they attended the barbecue at the base of the park, and then I helped to clean up after the groups of people once the barbecue was finished. On a different occasion I helped to create blankets for those in need.
- Math Tutoring For Mu Alpha Theta; During 2018-2019 (sophomore) and 2019-2020 (junior) school years (16 total hours)
  - I helped students who needed assistance with math. The type of math depended on the student.
- Activity Hours for Mu Alpha Theta; During 2018-2019 (sophomore) and 2019-2020 (junior) school years (11 total hours)
  - I helped with events such as Mini Mu by helping to clean up, proctoring tests, and bringing snacks. I also helped to grade tests and guide children to their rooms.
- Volunteering with Rotary Interact Club; During 2018-2019 (sophomore) school year (3 total hours)
  - I helped with the annual Rotary pancake brunch at Brentwood Middle School. At the brunch, I cleaned up after guests and inflated balloons for children.
- Volunteering with ECO Club at the Adventure Science Center Fall into Science Fest; October 19, 2019 (4 total hours)
  - I helped run a free cookie stand and a catapult event during the Adventure Science Center Fall Fest.
- Volunteered at a research lab at Tennessee State University during the summer of 2017 and 2018. (40 total hours)
  - Helped undergrad students and professors care for the DNA and RNA extractions and cell cultures while also learning about various lab procedures

Total Volunteer Hours: 203.05 hours
-------------------------------------

**Employment:**

- Currently working part-time at Sweet Dreams Bakery and Bubble Tea (443 Cool Springs Blvd, Franklin, TN 37067; 615-584-8260). Started working in August of 2018 (4 hours/week every Friday).
  - I make various kinds of bubble tea and smoothies, wash the dishes, and clean the store.
